AUTHOR INDEX

Alarie, Y. C.
Toxicity of the Degradation Products from Polyphosphazene Copolymers, p. 143

Cagliostro, D. E.
Modeling of Exposure to Carbon Monoxide in Fires, p. 231

Dittenber, D. A.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Farrar, David G.
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Gaume, James G.
Instrumented Animal Systems for Toxic Assessment of Materials, p. 124

Gorzinski, S. J.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Hermann, E. A.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Hilado, Carlos J.
Toxicity of Pyrolysis Gases from Some Flame Resistant Fabrics, p. 69

A Bibliography of Published Papers on Combustion Toxicology, p. 119

Toxicity of Pyrolysis Gases from Polypropylene Fibers Containing a Flame Retardant, p. 134

Toxicity of Off-Gases from Liquids, p. 173

Concentration-Time Relationships for Toxic Responses, p. 177

Some Relationships Between Relative Toxicity and Total and Lethal Weight Loss of Polymers, p. 194

The Use of Rising Temperature to Integrate Fixed Temperature Effects in Off-Gas Toxicity, p. 201

Engineering Toxocilogy: Matching Laboratory Animals and Test Apparatus, p. 264

Huttlinger, Patricia A.
A Bibliography of Published Papers on Combustion Toxicology, p. 119

Toxicity of Pyrolysis Gases from Polypropylene Fibers Containing a Flame Retardant, p. 134

Concentration-Time Relationships for Toxic Responses, p. 177

Some Relationships Between Relative Toxicity and Total and Lethal Weight Loss of Polymers, p. 194

The Use of Rising Temperature to Integrate Fixed Temperature Effects in Off-Gas Toxicity, p. 201

Keyes, D. G.
Results of a Two-Year Toxicity and

Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Kimmerle, Georg
The Relative Toxicity of Pyrolysis Products, Part I. Plastics and Man-Made Fibers, p. 42

The Relative Toxicity of Pyrolysis Products, Part II. Polyisocyanate Based Foam Materials, p. 54

Klimisch, Hans-Joachim
Comparative Measurements of the Toxicity to Laboratory Animals of Products of Thermal Decomposition Generated by the Method of DIN 53 436, p. 209

Generation of Constant Concentrations of Thermal Decomposition Products in Inhalation Chambers. A Comparative Study with a Method According to DIN 53 436. I. Measurement of Carbon Monoxide and Carbon Dioxide in Inhalation Chambers, p. 243

Generation of Constant Concentrations of Thermal Decomposition Products in Inhalation Chambers. A Comparative Study with a Method According to DIN 53 436. II. Measurement of Concentrations of Total Volatile Organic Substances in Inhalation Chambers, p. 257.

Kociba, R. J.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Lieu, P. J.
Toxicity of the Degradation Products from Polyphosphazene Copolymers, p. 143

Magill, J. H.
Toxicity of the Degradation Products from Polyphosphazene Copolymers, p. 143

Matthews, Ronald Douglas
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Oxides of Nitrogen, p. 99

Estimated Permissible Levels, Ambient Concentrations, and Adverse Effects of the Nitrogenous Products of Combustion: The Cyanides, Nitro-olefins, and Nitroparaffins, p. 157

Momany, J. J.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Murphy, Regina M.
Engineering Toxicology: Matching Laboratory Animals and Test Apparatus, p. 264

Olcomendy, Elaine M.
Toxicity of Pyrolysis Gases from Some Flame Resistant Fabrics, p. 69

Prager, Franz K.
The Relative Toxicity of Pyrolysis Products, Part I. Plastics and Man-Made Fibers, p. 42

The Relative Toxicity of Pyrolysis Products, Part II. Polyisocyanate Based Foam Materials, p. 54

Quinn, T.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Schwetz, B. A.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Schwetz, R. W.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Wade, D. A.
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

SUBJECT INDEX

Air Pollution
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Amines
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Ammonia
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Ammonia, Animal Response
Concentration-Time Relationships for Toxic Responses, p. 177

Anoxia
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Atmospheric Chemistry
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Carbon Monoxide, Animal Response
Concentration-Time Relationships for Toxic Responses, p. 177

Carbon Monoxide, Exposure Modeling
Modeling of Exposure to Carbon Monoxide in Fires, p. 231

Combustion
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Combustion Product Toxicities
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Combustion Toxicology, Bibliography
A Bibliography of Published Papers on Combustion Toxicology, p. 119

Cyanides, Products of Combustion
Estimated Permissible Levels, Ambient Concentrations and Adverse Effects of the Nitrogenous Products of Combustion: The Cyanides, Nitro-olefins, and Nitroparaffins, p. 157

Degradation Products
Toxicity of the Degradation Products from Polyphosphazene Copolymers, p. 143

Dibromoneopentyl Glycol, Oncogenic Study
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

DIN 53 436, Method for Measuring Toxicity
Comparative Measurements of the Toxicity to Laboratory Animals of Products of Thermal Decomposition Generated by the Method of DIN 53 436, p. 209

Douglas Fir
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Gas Toxicity, Evolution by Rising Temperature
The Use of Rising Temperature to Integrate Fixed Temperature Effects in Off-Gas Toxicity, p. 201

Gas Toxicity, FR Fabrics
Toxicity of Pyrolysis Gases from Some Flame Resistant Fabrics, p. 69

HCN and CO
Toxicity of the Degradation Products from Polyphosphazene Copolymers, p. 143

Incapacitation
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Inhalation Chambers, Measurement of Volatile Substances
Generation of Constant Concentrations of Thermal Decomposition Products in Inhalation Chambers. A Comparative Study with a Method According to DIN 53 436. II. Measurement of Concentrations of Total Volatile Organic Substances in Inhalation Chambers, p. 257

Inhalation Chambers, Measurement of CO and CO_2
Generation of Constant Concentrations of Thermal Decomposition Products in Inhalation Chambers. A Comparative Study with a Method According to DIN 53 436. I. Measurement of Carbon Monoxide and Carbon Dioxide in Inhalation Chambers, p. 243

Isocyanate Based Foams
The Relative Toxicity of Pyrolysis Products. Part I. Plastics and Man-Made Fibers, p. 42

Laboratory Animals, Matching with Test Apparatus
Engineering Toxicology: Matching Laboratory Animals and Test Apparatus, p. 264

Leg-Flexion Response
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Man-Made Fibers
The Relative Toxicity of Pyrolysis Products. Part II. Polyisocyanate Based Foam Materials, p. 54

Mechanisms of Toxicity
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Natural Materials
The Relative Toxicity of Pyrolysis Products. Part I. Plastics and Man-Made Fibers, p. 23

The Relative Toxicity of Pyrolysis Products. Part II. Polyisocyanate Based Foam Materials, p. 54

Nitroparaffins, Products of Combustion
Estimated Permissible Levels, Ambient Concentrations, and Adverse Effects of the Nitrogenous Products of Combustion: The Cyanides, Nitro-olefins, and Nitroparaffins, p. 157

Nitro-Olefins, Products of Combustion
Estimated Permissible Levels, Ambient Concentrations, and Adverse Effects of the Nitrogenous Products of Combustion: The Cyanides, Nitro-olefins, and Nitroparaffins, p. 157

Nitrogenous Species
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Oncongenic Study, Dibromoneopentyl Glycol
Results of a Two-Year Toxicity and Oncongenic Study of Rats Ingesting Diets Containing Dibromoneopentyl Glycol (FR-1138), p. 77

Oxides of Nitrogen, Toxicology, and Atmospheric Chemistry of
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Oxides of Nitrogen, p. 99

Plastics
The Relative Toxicity of Pyrolysis Products. Part II. Polyisocyanate Based Foam Materials, p. 54

Polymers, Toxicity vs. Weight Loss
Some Relationships Between Relative Toxicity and Total and Lethal Weight Loss of Polymers, p. 194

Polyphosphazenes
Toxicity of the Degradation Products from polyphosphazene Copolymers, p. 143

Polypropylene Fibers, Toxicity of Pyrolysis Gases
Toxicity of Pyrolysis Gases from Polypropylene Fibers Containing a Flame Retardant, p. 134

Pyrolysis Products
The Relative Toxicity of Pyrolysis Products. Part I. Plastics and Man-Made Fibers, p. 42

The Relative Toxicity of Pyrolysis Products. Part II. Plastics and Man-Made Fibers, p. 42

Relative Toxicity
The Relative Toxicity of Pyrolysis Products. Part I. Plastics and Man-Made Fibers, p. 42

The Relative Toxicity of Pyrolysis Products. Part II. Polyisocyanate Based Foam Materials, p. 54

Sensory Irritants
The Effect of the Sensory Irritant Component of a Combustion Atmosphere Derived from Douglas Fir on the Leg-Flexion Avoidance Response of the Rat, p. 3

Sulfur Dioxide, Animal Response
Concentration-Time Relationships for Toxic Responses, p. 177

Toxic Assessment, Instrumented Animal System
Instrumented Animal Systems for Toxic Assessment of Materials, p. 124

Toxicity
Toxicity of the Degradation Products from Polyphosphazene Copolymers, p. 143

Toxicity of Combustion Products
The Effect of the Zirpro Flame-Retardant Treatments on the Toxicity of Combustion Products from Wool, p. 181

Toxicity Screening, Liquids
Toxicity of Off-Gases from Liquids, p. 173

Toxicology
Toxicology and Atmospheric Chemistry of the Nitrogenous Products of Combustion: The Amines, p. 23

Zirpro Wool
The Effect of the Zirpro Flame-Retardant Treatments on the Toxicity of Combustion Products from Wool, p. 181
